# NEW JERSEY STATE PRISON

## SPECIAL Needs UNIT

(Resisting) The Drug Therapy chair # 1-EE

Psychological wounds

THE TWO (2) FORCED MEDICATION CHAIRS ARE LOCATED IN A ROOM IN ONE OF THE PRISON'S "SPECIAL NEEDS UNITS" CALLED #1-EE WHICH IS LOCATED IN THE SOUTH COMPOUND SECTION OF THE PRISON HERE AT TRENTON STATE PRISON (TSP). THE CHAIRS ARE SITUATED SIDE-BY-SIDE. THE CHAIR IS DESIGNED TO RESTRAIN A PRISONER(S) FROM BEING ABLE TO MOVE HIS OR HER ARMS, LEGS OR MID-SECTION OF THEIR BODIES.

A PRISONER(S) IS PLACED IN THE CHAIR TO BE FORCED MEDICATED. THEY IN THE CHAIRS WITH VELCRO STRAPS. THEY USE TO BE SECURED IN THOSE CHAIRS WITH HANDCUFFS. SOME PRISONER(S) HAVE A SHEER, BLACK HEAD NET PLACED OVER THEIR HEAD AND FACE. IN SOME CASES A GAG MADE OF WHITE CLOTH IS PLACED OVER THE PRISONER'S MOUTH UNDERNEATH THE BLACK HEAD NET TO PREVENT THE PRISONER(S) FROM SPITTING - OR VERBALIZING HIS OR HER PROTEST OVER BEING FORCED MEDICATED!

ONCE A PRISONER(S) IS SECURED IN THE CHAIR, A NURSE INJECT THE PRISONER WITH SOME KIND OF PSYCHOTROPIC DRUG INTRAVENOUSLY. THE ATTENDING NURSE IS SUPPOSE TO TEST THE PRISONER'S HEART RATE AND BLOOD PRESSURE EVERY FIFTEEN (15) OR TWENTY (20) MINUTES IN THE EVENT THE PRISONER(S) MIGHT POSSIBLY GO INTO CARDIAC ARREST FROM THE FORCED INJECTION OF THE PSYCHOTROPIC DRUG!

THE PRISONER(S) IS KEPT IN THE CHAIR FOR A MINIMUM OF FOUR (4) HOURS; MOST TIMES MORE! AFTER THE PRISONER(S) IS REMOVED FROM THE CHAIR, HE OR SHE ARE STRIPPED NAKED AND GIVEN A QUILTED GOWN, AND PLACED IN A COLD CELL WITH NOTHING BUT A FILTHY PIECE OF FOAM FOR SLEEPING PURPOSES!
